Culture

France

Véronique Sapin  
Curator of FemLink  
v.sapin@sfr.fr

FemLink, an International women artists collective (based in Midi-Pyrénées Region, France) is looking for partners to participate in its project of free international diffusion of an art book (with DVD) about the collective.

The collective currently brings together 139 artists from 63 countries. Since 2006, FemLink was introduced in more than 90 arts centers and museums across the world. (<http://www.femlink.org/DIFFUSION.html>)

FemLink's principle is the following: for each topic chosen, about 30 artists (each one representing one country) will create a 2-minute-video that will be used for a common artwork called a "collage-video".

Since 2005, the collective have already produced 8 collage-videos on different topics such as: Fragility, Resistance, Preoccupation, Male, Wonder, Vital, Aggression, Protest. Since 2006, more than 90 arts centers and museums have shown FemLink's works in 30 countries.

2015 will be the 10th anniversary of FemLink. For this occasion, the collective wants to launch a new work composed of 33 videos (made by 33 artists from 33 countries) that will be released on January 2015. The topic is: "FEMALE". FemLink also plans to publish a "FemLink book" which will include the DVD of the collage-video "FEMALE". The book will be distributed for free in art schools and art centers in developing countries.

Hence, the collective is looking for places to make available the book and to broadcast the video so as to highlight the work of women artists in the world.

Liselotte Jensen

[lisjen@zealanddenmark.eu](mailto:lisjen@zealanddenmark.eu)

If you would like to participate in this project please contact before 28th of March 2014.

Project idea for the call Horizon 2020 - EE-10-2014: Energy Consumer engagement for sustainable energy. Several small towns and communities across Europe are today facing significant challenges (energy poverty, CO2 emissions, air pollution, lack of / in-efficient energy infrastructures) due to their dependence on fossil fuels (oil & gas) for heating and energy.

Many of the communities are however not in the vicinity of DH or natural gas networks and will need to find alternative solutions. Towards this challenge initiatives have commenced in building various businessmodels to decrease risk for households as well as to reduce the costs. Cooperatives or Energy service contracts are current examples, but the market penetration of small-scale renewable are still moving too slow - for private energy costs as well as for European Union energy ambitions.

<http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/2360-ee-10-2014.html>

Deadline for the call is 5th of June 2014.

---

/KoWi/ Die ERA-Net Plus-Initiative „Infravation“ hat einen Aufruf zur Einreichung transnationaler Projektanträge veröffentlicht. ERA-Net-Initiativen sind Bestandteile des EU-Forschungsrahmenprogramms. Im Rahmen von Infravation haben sich zehn europäische Länder sowie die USA zusammengeschlossen, um transnationale Forschungsprojekte im Bereich der innovativen Verkehrsinfrastruktur zu unterstützen.

Der Aufruf richtet sich insbesondere an länderübergreifende Forschungsgruppen aus den an Infravation beteiligten Staaten: Niederlande, Dänemark, Deutschland, Frankreich, Island, Israel, Italien, Norwegen, Schweden, Spanien und USA. Darüber hinaus können sich, mit Einschränkungen und unter bestimmten Voraussetzungen, auch Akteure aus den übrigen EU28-Staaten sowie aus den am 7. EU-Forschungsrahmenprogramm assoziierten Ländern beteiligen.

Die Förderinitiative umfasst sieben Schwerpunkthemen („Challenges“):

- A. Advanced predictive infrastructure performance processes
- B. Enhanced durability and life-time extension
- C. Rapid and non-destructive methods for routine quality and performance checks of materials and construction
- D. Keeping freight routes open through zero-intrusive maintenance
- E. Ensuring infrastructure performance under all weather conditions
- F. Resource and energy efficiency in road construction and maintenance (eco-design)
- G. Virgin material reduction by substitution or recycling

Es wird ein zweistufiges Einreichungsverfahren (Kurzantrag in der Vorauswahl der ersten Phase) zur Anwendung kommen. Die Frist für die Einreichung eines Kurzantrags (light proposal) endet am 30. Juni 2014, 17:00 Uhr.

## **6. /Boehringer Ingelheim Fonds/ PhD Fellowships, Termin: 01.06.2014**

---

/Boehringer Ingelheim Fonds / The Boehringer Ingelheim Fonds awards PhD fellowships to outstanding junior scientists (max. age: 27 years) who wish to pursue an ambitious PhD project of approximately 3 years in basic biomedical research in an internationally leading laboratory. For further details please refer to "Who can apply?". The peer-review-based selection process is highly competitive. Applicants should therefore be outstanding in all three selection criteria.

Purpose

To promote basic research in biomedicine by providing the best young, up-and-coming scientists with comprehensive support during their PhD phase.

More than a monthly stipend

The fellowship comprises a competitive monthly stipend that is initially granted for 2 years and that can be extended for up to another 12 months. Participation in international scientific conferences is also supported. In addition, fellowship holders are offered personal support, seminars to discuss their projects, communication training and alumni meetings, and thus can become part of a worldwide network. Read more under personal support and conditions.

#### Timing and selection

Deadlines of application: 1 February, 1 June, 1 October of each year. Pre-selection takes place about 4 weeks after the respective deadline, and the final selection approximately 5 months after the respective deadline.
