Inhalte

1. /BMBF*/ Förderung von Projekten der wissenschaftlich-technologischen Zusammenarbeit mit Kolumbien, Frist: 16. September 2022, 1. Stufe

Es handelt sich um eine bilaterale Ausschreibung, bei der die deutsche Seite Kosten/Ausgaben für deutsche Projektbeteiligte fördert und die kolumbianische Seite Wissenschaftlerinnen und Wissenschaftler aus Kolumbien unterstützt. Dies erfordert eine parallele Antragstellung durch die kolumbianischen Projektpartner (siehe Nummer 7).

Die Förderung bezieht sich auf die Mobilität von projektbezogenem Personal (Personalaustausch), die Koordinierung der bilateralen Kooperation und auf die Organisation von Veranstaltungen. Die geplanten Maßnahmen sollen Forschungsvorhaben begleiten, die aus anderen Quellen finanziert werden.

Forschungsarbeiten können daher nur in geringem Umfang über die Förderrichtlinie gefördert werden. Es werden Projekte aus den folgenden thematischen Schwerpunktbereichen gefördert:

- Biotechnologie
- Biodiversität
- Gesundheitsforschung
- Meeresforschung
- Geowissenschaften

Antragsberechtigt sind Hochschulen, außeruniversitäre Forschungseinrichtungen und andere Institutionen, die Forschungsbeiträge liefern, sowie Unternehmen der gewerblichen Wirtschaft - insbesondere KMU. Zum Zeitpunkt der Auszahlung einer gewährten Zuwendung wird das Vorhandensein einer Betriebsstätte oder Niederlassung -(Unternehmen) beziehungsweise einer sonstigen Einrichtung, die der nichtwirtschaftlichen Tätigkeit des Zuwendungsempfängers dient (Hochschule, außeruniversitäre Forschungseinrichtung und andere Institutionen, die Forschungsbeiträge liefern), in Deutschland verlangt. Das Antragsverfahren ist zweistufig angelegt.

2. /BMEL/ ICT-AGRI-FOOD's 2022, deadline: 15. August 2022 13:00 CEST

The scope of the 2022 Joint Call is based on the ICT-AGRI-FOOD vision, which explicitly sets out to bring together actors from across the entire food system (from conventional and organic supply chains) in a multi-actor approach. The challenge is to develop systems that are efficient, effective, equitable, trustable and transparent while enhancing sustainability of these.

Proposals should address one of the the following topic (s):

TOPIC 1 - Agri-food systems enabled by interconnected digital technologies that are more transparent to consumers, farmers and other stakeholders along the agri-food value chain

This topic includes data-driven systems enabling and promoting transparency for the various end- users along the agri-food value chain from producer to consumer, as well as for advisors, administrative authorities and the policy level (including improved data infrastructure, data management, data governance, data security and protection).

Projects investigate, develop, test, and use digital tools to fill information/communication gaps in the agri-food system along the food value chain. In doing so, the RDI process should start with mapping the value chain from producer to consumer, and in a next step identify and introduce critical points/process

steps where information flow (and transparency) can be improved, and in a further step possible intervention tools could be proposed, integrated and tested. A focus should be on the state of the art and missing technology solutions or the combination of digital tools and methodological gaps. Digital tools that are interconnected should be promoted. The potential transferability of developed solutions to other agri-food systems should be critically addressed.

TOPIC 2 - Identify, address and remove barriers for adoption of ICT technologies in the agri-food systems
This topic relates to identify and address institutional, economic and social barriers on the adoption of ICT technologies for achieving sustainability of the agri-food systems. The following aspects need to be included:

- Integrating social science research to understand social and cultural practices within e.g. farming, food processing, distribution and consumer behaviour aimed to identify mechanisms and models for enhanced adoption of technological solutions and data sharing within agri-food systems.
- Understanding how digitalisation affects structures and behaviour of actors: identifying successful value chains and business models, looking at governance, leadership and organisations within new innovation arenas (e.g. from start-ups to large companies, transition from small to large size with scale-up) of digitalised agri-food systems.
- Identifying solutions to develop more user-friendly technologies and services, such as ethical nudging tools (for e.g. direct marketing and shopping experience), information tools (e.g. social media, apps), gamification approaches, co-design etc.
- Stepping further from barriers identification towards concept solutions, including for example standard development (if applicable).

TOPIC 3 - Development and impact estimation (if applicable: evaluation) of data-driven reward and incentive systems to support sustainable and resilient farm management practices

These systems should involve and consider food value chain feedback loops and detecting actors that are willing to bear part of the cost of the engagement for strengthening ecosystem services (including carbon sequestration, biodiversity protection, soil fertility maintenance, protection of water bodies, avoidance of antibiotics, promotion of pollinators etc.). Projects should elaborate targeted advice and digital tools for new policies and regulatory frameworks or other incentive and reward systems.

<https://www.ictagrifood.eu/node/44929>

3. /German-Israeli Cooperation/ The Martin Buber Society of Fellows in the Humanities and Social Sciences, deadline: 15. September 2022

The Martin Buber Society of Fellows aims at fostering interdisciplinary academic discourse at the highest level among outstanding young scholars (post-doctoral). Candidates who have completed their PhD at an Israeli or German university, as well as citizens of Israel or Germany who have received their PhD in any country, are eligible to apply. Applicants must have their PhD degree in hand no earlier than October 1st, 2018, and no later than July 1st, 2023.¹ Application is open for those specializing in all fields of the Humanities and the Social Sciences.² We are looking for creative humanists and social scientists with broad intellectual horizons. No connection of the subject matter to Jewish studies or Israel is required.

Each year the Academic Committee of the Martin Buber Society of Fellows selects up to ten exceptionally gifted young scholars (up to five from Israel and five from Germany). Fellows receive a monthly stipend of approximately 9000 NIS. They are expected to be in residence and asked to spend at least 4 days a week at the office. The fellows are also encouraged to move to Jerusalem, and those who do receive an additional housing subsidy that can be used either for apartments in the university's Student Village (on campus) or to help with rental costs elsewhere in town. Non-Israeli fellows who move to Jerusalem with their family are eligible for additional support.

Fellows have the opportunity to pursue their individual research under optimal conditions for the term of their fellowship and are expected to become part of the vibrant scholarly community in Jerusalem,

reflecting the widest possible disciplinary spectrum in the Humanities and the Social Sciences and embodying a spirit of shared intellectual adventure. They are obliged to participate in biweekly colloquia, workshops, lectures, study excursions, and other cultural and academic activities of the MBSF. Discussions in the Martin Buber Society take place in English (not in Hebrew or German).

Scholarships are granted for a maximum of four years, beginning October 1, 2023 (subject to review at the end of each year), on the basis of a detailed proposal of a research project of major scope and innovative character. Indeed, an imaginative proposal (no longer than 5 pages) that proves the applicant's ability to carry out cutting-edge research in her or his field is the most important part of the application.

Further Information:

https://www.cogril.de/media/content/Buber_Call_for_Applications_2023-2024.pdf

4. /German Cancer Aid/ Excellence Funding Programme for Established Scientists, deadline: 22. September 2022, 1. Step

With the aim of giving well-established, excellent scientists the necessary freedom to develop new conceptual approaches by pursuing innovative, ground-breaking ideas for the prevention, diagnosis and treatment of cancer, the German Cancer Aid has decided to launch a second call for applications within the 'Excellence Funding Programme for Established Scientists'. This programme enables the submission of long-term 'high-risk - high gain' research projects.

Professors and group leaders successfully working in clinical or basic clinically oriented cancer research with an outstanding academic CV are eligible to apply.

The programme gives scientists the opportunity to work on projects that cannot be funded within the scope of other German Cancer Aid funding programmes or by institutional core funding.

Funding of up to a maximum of € 1.5 million is available for a period of 5 years.

The procedure for application and evaluation consists of two steps. Project outlines in English must be submitted by 22.09.2022 to the German Cancer Aid. If the preliminary evaluation is favourable, full applications must be submitted by 23.02.2023.

Further Information:

<https://www.krebshilfe.de/forschen/foerderung/ausschreibungen/#tab-nav-322>

5. /European Centre for Development of Vocational Training/ Provision of services supporting Cedefop's skills analysis and intelligence, deadline: 25. August 2022

This contract aims at providing qualitative and quantitative information and analyses, to support the development of Cedefop's skills intelligence and skill analysis work through the following services:

- engaging in data collection, handling and analysis,
- conducting research in skills and labour market
- transforming skills and labour market data and qualitative information into customised skills intelligence and
- organising, facilitating, and reporting on content-related workshops, focus groups, expert interviews and other qualitative or mixed-methods data collection approaches.

The procurement documents are available via the TED e-Tendering platform:

<https://etendering.ted.europa.eu/cft/cft-display.html?cftId=11155>

Requests for additional information/clarification should be received by 16/08/2022, 23h59 (UTC+03:00 Greek local time). All questions and answers will be available in the above mentioned website.

Further Information:

<https://www.cedefop.europa.eu/en/about-cedefop/public-procurement/provision-services-supporting-cedefops-skills-analysis-and-intelligence#group-details>

6. /European Centre for Development of Vocational Training/ Thematic Country Reviews (TCRs) on upskilling pathways for (low-skilled) adults, deadline: 01. September 2022

This contract falls under Cedefop strategic area Valuing VET and skills - fostering CVET as a system in a lifelong perspective. It aims at supporting the development of systematic and coordinated approaches to lifelong upskilling and reskilling pathways of low-skilled adults through in-depth reviews of countries' approach to the implementation of the Recommendation on Upskilling Pathways in two volunteer countries.

The procurement documents are available via the TED e-Tendering platform:

<https://etendering.ted.europa.eu/cft/cft-display.html?cftId=11359>

Requests for additional information/clarification should be received by 23/08/2022, 23h59 (UTC+03:00 Greek local time). All questions and answers will be available in the above mentioned website.

Further Information:

<https://www.cedefop.europa.eu/en/about-cedefop/public-procurement/thematic-country-reviews-tcrs-upskilling-pathways-low-skilled-adults>

7. /European Centre for Development of Vocational Training/ The role of the socio-economic partners in skills strategies for a just green transition: a regional perspective, deadline: 12. September 2022

The objective of the study is to collect evidence on and investigate the role of the socio-economic partners in the skill component of just green transition strategies at regional level (NUTS level 2) and to draw lessons and formulate policy recommendations as to how this role could be enhanced in other regions facing similar challenges.

The procurement documents are available via the TED e-Tendering platform:

<https://etendering.ted.europa.eu/cft/cft-display.html?cftId=11649>

Requests for additional information/clarification should be received by 01/09/2022, 23h59 (UTC+03:00 Greek local time). All questions and answers will be available in the above mentioned website.

Further Information:

<https://www.cedefop.europa.eu/en/about-cedefop/public-procurement/role-socio-economic-partners-skills-strategies-just-green-transition-regional-perspective>

8. /European Centre for Development of Vocational Training/ Training funds in the EU, deadline: 23. September 2022

The study is composed of two interlinked work assignments (WAs). The WA1 will provide an overview of the currently existing training funds across EU-27 and conduct in-depth analysis of training funds in eight

(8) selected EU Member States (MS). The objective of WA2 is to explore the potential for establishing new training funds in the EU-27.

The procurement documents are available via the TED e-Tendering platform:

<https://etendering.ted.europa.eu/cft/cft-display.html?cftId=11587>

Requests for additional information/clarification should be received by 14/09/2022, 23h59 (UTC+03:00 Greek local time). All questions and answers will be available in the above mentioned website.

Further Information:

<https://www.cedefop.europa.eu/en/about-cedefop/public-procurement/training-funds-eu>

9. /European University Institute/ LLM Programme in Comparative, European and International Laws, deadline: 21. January 2023 23:59 CET

The LLM Programme in Comparative, European and International Laws of the European University Institute (EUI) is a one-year programme. It is predominantly research-based and focusses on the acquisition and practice of research skills and on the preparation of a dissertation. It addresses candidates who wish to advance their legal knowledge and their ability to develop and express scholarly analyses, in a stimulating international and interdisciplinary environment.

The programme is taught by eminent academics, including professors of the EUI, as well as world-renowned guest professors and experts. The programme is attended by an international body of researchers, selected with highly competitive admission criteria.

The Department of Law examines the challenges facing European law, public international law, and private law, looking within cultural, political and economic topics. The range of interests amongst our faculty allows researchers to transcend national boundaries and contexts.

LLM researchers, under the supervision of a Professor in the Department of Law, must obtain a series of necessary credits through term seminars, intensive courses, workshops, and summer schools.

Half of these credits will be obtained by submitting a term paper and a dissertation, which will become the basis for the conferment of the LLM degree.

LLM researchers can attend the cultural and scientific events (lectures, conferences, workshops) that take place at EUI. Each year the Law Department organizes many such initiatives, touching a vast range of subjects concerning European, Comparative and International laws.

Each researcher, with the advice of his/her supervisor, must prepare an individual study programme, choosing among the various term seminars, short seminars, intensive courses, workshops, and summer schools offered by the Department.

Researchers must take at least two regular term seminars in European, International and/or Comparative Laws, one in the first and one in the second term, and attend a seminar in legal research.

Researchers must submit a term paper in preparation for the dissertation (by the end of February), and a completed dissertation (by 1 October of the year following arrival), on the basis of which the LLM will be awarded.

Further Information:

<https://www.eui.eu/apply?id=llm-programme-in-comparative-european-and-international-laws>

10. /European University Institute/ Max Weber Fellowships, deadline: 18. October 2022 23:59 CET

The Max Weber Programme (MWP) at the European University Institute (EUI) is a unique postdoctoral programme in the historical and social sciences in Europe. It is open to applicants who are within 5 years

from the completion of their PhD, from anywhere in the world, regardless of nationality. The Programme is highly selective, with an annual acceptance rate of <5% for a total of 55-60 Fellowships in the fields of political and social sciences, economics, law, and history. Preference is given to applicants who have only just completed their doctorate and have not had a postdoctoral fellowship before. Selected Fellows will benefit from the stimulating combination of a global programme located in the heart of Europe offering a broad menu of multidisciplinary and disciplinary activities.

The Programme awards 1 and 2 year long fellowships according to departments. In extraordinary cases only can a fellowship be extended to a third year.

The grant provided by the Fellowship is currently 2,070 EUR per month plus - when appropriate - a family allowance. Fellows in the Department of Economics and Political and Social Sciences who stay on for a second year will have the possibility of applying for a Part-time assistant professor contract (level ASSPR6/3) for 12 months involving some teaching duties and mentoring Ph.D. researchers: net remuneration would be approximately 850 EUR in addition to the monthly grant. The MWP operates a parental leave policy.

Further Information:

<https://www.eui.eu/apply?id=max-weber-fellowships>

11. /European University Institute/ Doctoral Programme in Political and Social Sciences, deadline: 31. January 2023 23:59 CEST

Our researchers study the important issues of our time that the social science can uniquely address, with Ph.D. opportunities across politics and comparative politics, political theory, international relations, and sociology.

Our active faculty, and strong cohort of Ph.D. researchers and post-doctoral scholars, creates a stimulating environment for study. By covering key fields across the political and social sciences within one department, we enable cross-disciplinary research conversations to take place, meaning ideas and research findings are easily shared and discussed further.

While our experienced staff offer intense supervision, you also receive the academic freedom and time for your own independent research. In addition, our researchers benefit from interacting with the academics, practitioners and other leaders in their field, who are regular visitors to our Department and are able to offer their advice and thoughts on your work.

The policy of the EUI is not to offer individual guidance and advice on dissertation proposals. You should not contact potential supervisors but read the information on research themes on this page and indicate three professors who could supervise your dissertation in the application form.

Further Information:

<https://www.eui.eu/apply?id=doctoral-programme-in-political-and-social-sciences>

12. /European University Institute/ Doctoral programme in Law, deadline: 31. January 2023 23:59 CEST

The Department of Law enables you to study the challenges facing European law, public international law, and private law, with Ph.D. opportunities across social, cultural, political and economic topics.

Our researchers create strong links during their time here, thanks to our outstanding levels of interaction between faculty and researchers. Close supervision, seminars that are open to all, and active working groups ensure a dynamic exchange of ideas and knowledge, which shapes your research and helps

develop your intellectual independence.

The interdisciplinary nature of our Department means that each year, world-famous scholars and leaders in their field visit to carry out research and to present and discuss their work. Our researchers further develop their skills and understanding through access to these experts.

Further Information:

<https://www.eui.eu/apply?id=doctoral-programme-in-law>

13. /European University Institute/ Doctoral Programme in History and Civilisation, deadline: 31. January 2023 23:59 CET

The Department of History and Civilisation offers a distinctive four-year Ph.D. programme of transnational and comparative European history supported by a uniquely international and multicultural faculty. We encourage Ph.D. researchers to think beyond boundaries, offering them exceptional opportunities to study global connections within early modern and modern European history.

Our Department encourages a culture of conversation among researchers and faculty. Professors and researchers work together to develop ideas and each year we invite experts from around the world in numerous fields to visit our department to discuss their research.

We have a strong commitment to equality, diversity, and above all, to inclusivity in all aspects of life. The international character of our community of scholars with its amazing wealth and diversity of academic interests and training is our particular asset. Researchers are challenged to rethink their background assumptions in a fascinating learning experience.

In the first and second years doctoral researchers study historiographical and methodological issues and focus on an in-depth exploration of selected central themes of European history. In the third and fourth years, researchers focus on their individual research, and are invited to present the results of their work at seminars and workshops

Supervision: Researchers are followed by a supervisor in the development their own doctoral project. The supervisor is responsible for advising on research and career development while a second reader is also appointed to offer another perspective on the researcher's work. In order to help researchers in the process of designing and writing their PhD thesis, the Department provides a series of individual thesis monitoring sessions.

Seminars: The first and second years of the doctoral programme are based on a combination of coursework and research activities. Interdisciplinary and training skills, and academic writing courses are organised Institute-wide. Within the Department the teaching programme includes Departmental, Research, and Training Seminars, and other academic activities (conferences, workshops, lectures, courses on digital tools for academic research).

Fieldwork: Historical research is essentially based on consultation of sources and archives. In order to foster fieldwork and the exchange of ideas the Department contributes to the expenses for research trips or for the participation in international conferences.

Working groups: Researchers are encouraged to join and set up working groups in order to share common interests. Working groups give the opportunity to contemplate the fields covered by research seminars but also to profit from the possibility of peer-to-peer learning and open and flexible working conditions.

Further Information:

<https://www.eui.eu/apply?id=doctoral-programme-in-history-and-civilization>

14. /European University Institute/ Doctoral Programme in Economics, deadline: 31. January 2023 23:59 CET

The 2023-24 Academic Year Call for Applications will open in early November 2023. The deadline for completing the application form and for the submission of references and all required documents is 31 January 2023.

As a research-strong department, we offer focused supervision on your Ph.D., providing the support to explore your ideas and develop your intellectual autonomy. Our researchers work together, and with faculty, generating strong networks and connections that last throughout their time at the EUI and into their future career.

Yet our academic community is bigger than our faculty and our researchers - we welcome a huge number of world famous scholars to our Department each year. These visitors present and discuss their work, allowing you to build your knowledge and develop your ideas further. You can interact with these experts on an unprecedented level.

Meet the EUI ECO faculty and check their research fields.

The EUI is committed to providing equitable and inclusive conditions for all candidates and is keen to attract, encourage and retain a diverse and highly qualified community of scholars.

Candidates with disabilities or specific educational needs are encouraged to register their needs with the Office of the Dean of Graduate Studies (Email: DeanOfGraduateStudies@eui.eu) for the coordination of reasonable adjustments at the stage of application, selection, and admission to the programme.

Further Information:

<https://www.eui.eu/apply?id=doctoral-programme-in-economics>

15. /Federation of European Biochemical Societies/ 2023 FEBS Advanced Courses proposals, deadline: 01. September 2022

The FEBS Advanced Courses Committee invites proposals from expert scientists interested in organizing an event in 2023 with financial support from FEBS as part of next year's FEBS Advanced Courses programme. The upcoming applications deadline is 1 September 2022.

FEBS Advanced Courses take place throughout the area of Europe and neighbouring regions on important and timely topics in the molecular life sciences - in the form of Advanced Lecture Courses, Workshops, Practical Courses, combined Practical and Lecture Courses, and Special Meetings. Most Advanced Courses in 2023 can be funded by FEBS with up to €35,000 (up to €25,000 course grant + up to €10,000 for Youth Travel Fund (YTF) grants to assist participation of young researchers); for Special Meetings the funding is €40,000 course grant + up to €15,000 for YTF grants. Arranging such an event provides organizers with great opportunities for outreach, networking and impact in their chosen field.

Further Information:

<https://www.febs.org/news/call-for-2023-febs-advanced-courses-proposals/>

16. /Fulbright-Kommission/ Doktorand:innenprogramm, deadline: 01. November 2022

Fulbright Germany fördert deutsche Nachwuchswissenschaftler:innen die ein vier- bis sechsmonatiges Forschungsprojekt an einer U.S.-Hochschule oder einer wissenschaftlichen Einrichtung durchführen, das in direktem Zusammenhang mit ihrer bereits begonnenen akademischen Dissertation steht.

Das zu fördernde Forschungsvorhaben trägt zur Stärkung der Wissenschaftsbeziehungen zwischen amerikanischen und deutschen Hochschulen bei.

Gemäß dem Anspruch des Fulbright Programms richten wir uns an Nachwuchswissenschaftler:innen, die durch Ihre Persönlichkeit und Ihr Engagement aktiv zum akademischen und kulturellen Austausch zwischen Deutschland und den USA beitragen.

Bewerber:innen können sich Nachwuchswissenschaftler:innen, die in einem Promotionsstudium eingeschrieben sind, das auf ein wissenschaftliches Forschungsdoktorat zielt. Nach Abschluss des Stipendienaufenthalts führen sie die Promotion an ihrer Heimathochschule zu Ende. Mit Ausnahme der medizinischen Studienfächer steht die Förderung den Promovenden aller Fachbereiche offen (siehe "Zusätzliche Bewerbungsinformationen").

Chancengleichheit, Diversität, Inklusion sowie Bildungsgerechtigkeit gehören zu den Grundprinzipien von Fulbright Germany. Die Bewerbung ist offen für alle Personen unabhängig von u.a. Geschlecht, ethnische Herkunft, Religion oder Weltanschauung, Behinderung, Alter, gesellschaftlichen Status, sexuelle Orientierung und Geschlechtsidentität.

Fulbright Germany ermutigt Bewerber:innen aus traditionell unterrepräsentierten Studierendengruppen, sich für alle seine Stipendien, Programme und anderen Aktivitäten zu bewerben.

Bitte bewerben Sie sich zur Frist 1. November 2022 für einen Aufenthaltsbeginn in den USA zwischen dem 1. August und 31. Dezember 2023.

Weitere Informationen:

<https://www.fulbright.de/programs-for-germans/nachwuchswissenschaftler-innen-und-hochschullehrer-innen/doktorandenprogramm>

17. /Fulbright-Kommission/ Forschung und Lehre

Mit den Stipendien für deutsche Wissenschaftler:innen unterstützt die Fulbright-Kommission die Entstehung und Vertiefung der Kontakte zwischen deutschen und amerikanischen Hochschulen und Forschungsinstitutionen, die Einrichtung deutscher und amerikanischer Gastdozenturen und gemeinsamer Forschungsprojekte an den jeweils beteiligten Hochschulen.

Bewerber:innen können sich promovierte Wissenschaftler:innen (Professoren:innen, Dozenten:innen) sowie jüngere promovierte Wissenschaftler:innen (z.B. wissenschaftliche Assistenten:innen), die einen drei- bis neunmonatigen Lehr- oder Forschungsaufenthalt an einer wissenschaftlichen Einrichtung in den USA planen.

Stipendienleistungen:

- Finanzierung der transatlantischen Hin- und Rückreise in Höhe von 1.200 Euro
- Monatliche Unterhaltungskostenpauschale in Höhe von 2.000 Euro
- eine einmalige Nebenkostenpauschale in Höhe von 600 Euro
- Kranken- und Unfallversicherung
- Visa Sponsorship (Stipendiaten reisen mit dem kostenfreien Fulbright J-1 Visum in die USA)
- Betreuung und Aufnahme in das Fulbright Netzwerk

Die Bewerber:innen sollten einer deutschen Hochschule bzw. Forschungseinrichtung angehören und müssen folgende zusätzliche Voraussetzungen erfüllen:

- Deutsche Staatsangehörigkeit
- Einladung für einen Forschungs- bzw. Lehrauftrag an einer anerkannten amerikanischen Hochschule oder einem wissenschaftlichen Institut von mindestens dreimonatiger Dauer
- Bereitschaft zum Einsatz für die deutsch-amerikanische Verständigung (insbesondere zur Vertiefung der transatlantischen Wissenschaftsbeziehungen)
- Überzeugendes fachliches und persönliches Profil

Eine Bewerbung ist jederzeit - mindestens neun Monate vor der geplanten Abreise in die USA - möglich.

Weitere Informationen:

<https://www.fulbright.de/programs-for-germans/nachwuchswissenschaftler-innen-und-hochschullehrer-innen/forschung-und-lehre>

18. /Japan Canon Foundation in Europe/ Research Fellowships, deadline: 15. September 2022

Annually, the Canon Foundation in Europe grants up to 15 Fellowships to highly qualified European and Japanese researchers. European Fellows are expected to pursue a period of research in Japan whereas Japanese Fellows are expected to do their research in Europe.

Canon Foundation Fellowships are for a minimum period of three months up to maximum of one year. We support all fields of research. There are no limitations or restrictions. Applicants do not have to be currently enrolled or employed at the time of applying.

Canon Fellows from Europe are free to choose their host institutes and hosts in Japan. The same freedom is given to Japanese Canon Fellows coming to Europe. Canon Foundation Research Fellowships may be applied for when an agreement on co-operation and on a research plan has been reached between the guest researcher and the proposed host institution.

Applications can also be submitted by members of commercial, industrial, governmental or professional organisations.

All Europeans are eligible to apply (including UK, Israel, Turkey, Balkan and Baltic countries).

Applicants should have obtained at least a Master's or PhD degree within the last ten years of applying to the Canon Foundation. We will also consider candidates who obtained their qualification more than ten years ago as long as they provide further supporting information in their application.

The financial support for Research Fellows ranges from 22,500 Euro to 27,500 Euro per year and pro-rata for different periods. The Canon Foundation gives priority to those who plan to travel to Europe or Japan rather than prolong a current stay.

Please note that priority is given to applicants going to Europe and Japan for the first time.

The application deadline will be 15 September, 2022 for applications starting between January and December 2023.

Further Information:

<https://www.canonfoundation.org/programmes/research-fellowships/>

19. /Sonstige*/ Urbantech - Funding opportunity for SMEs & startups, deadline: 14. September 2022, 1. Step

URBAN TECH Programme is looking for innovative SMEs and start-ups to compete for a cascade funding with the total budget of 2M euros. To take part in the initiative, the participants will need to develop new or significantly improved products or services that address one of the 300 challenges collected in three areas:

- Health Tech
- Greentech
- Smart City

To apply, SMEs and start-ups must meet the following criteria:

- Based in EU and H2020 Associated countries. Eligible countries are listed in Annex 1 of the H2020 Work Programme 2018-2020.
- Must have 1-250 employees (minimum requirement is to have at least one full-time employee).

20. /Sonstige/ Wo gibt es Geld für die Forschung?- Infoveranstaltung 10. August 2022 10 Uhr - 12 Uhr im Gebäude 80

Wie das Statistische Bundesamt im September 2020 veröffentlicht hat, lagen im Jahr 2018 die durchschnittlichen Drittmiteinnahmen eines Universitätsprofessors bzw. -professorin bei 281.700 Euro. Die höchsten Drittmiteinnahmen je Professor*in erzielte die RWTH Aachen mit durchschnittlich 955.700 Euro/ Professor*in.

Ziel dieser Veranstaltung ist, Ihnen einen Überblick über die Möglichkeiten der Einwerbung von Mitteln für die Forschung bei bedeutenden öffentlichen Mittelgebern und wichtige Hinweise für die Antragstellungen zu geben, um Sie bei der Drittmiteleinwerbung zu unterstützen.

Themen sind:

- Förderung der DFG
- Förderung des Bundes, Bundeshaushalt
- Förderung des Landes Sachsen-Anhalt
- HORIZON Europe / Internationale Förderung
- Förderung durch Stiftungen
- Recherche in Datenbanken

Die Veranstaltung findet in Präsenz statt.

Anmeldung unter: <https://eveeno.com/657351134> oder via E-Mail an martina.hagen@ovgu.de

21. /Sonstige/ Das ABC der EU-Forschungsförderung - Teil A wie Ausschreibungen der EU-Forschungsförderung in Horizon Europe, 23. August 2022 10 Uhr

Die ABC-Veranstaltungsreihe geht in die nächste Runde!

Mit der Veranstaltungsreihe werden Wissen und Kompetenzen zum EU-Förderprogramm HORIZON Europe vermittelt. Die EU-Referenten und Projektmanager der Stabsstelle Forschungsförderberatung /EU-Hochschulnetzwerk geben ihre Erfahrungen aus mehr als 300 Anträgen und mehr als 50 EU-Projekten weiter. Ziel ist es, die Chancen zu verbessern, EU-Drittmittel für Ihre Forschung zu erhalten sowie Bausteine für die Antragstellung in HORIZON Europe aufzuzeigen und Tipps zur Antragstellung zu geben. Die Veranstaltung "A" - Ausschreibungen der EU-Forschungsförderung in Horizon Europe - wird den Anfang gestalten.

Neben einem Einblick in die Arbeit der Forschungsförderberatung der OVGU und des EU-Hochschulnetzwerks werden Fördermöglichkeiten in Horizon Europe vorgestellt. Es wird ein Überblick zum Programm, den Teilnahmebedingungen, Förderformen und Förderregeln gegeben.

Im Fokus der Vermittlung stehen Planung und Struktur eines Förderantrags sowie Partnersuche, Begutachtung und das Schreiben der Zusammenfassung.

Anmeldung unter: <https://eveeno.com/248687532>

Die Veranstaltung ist in Präsenz geplant.
