EU Neue Plattform future4europe – Strategische Foresight Aktivitäten

/EU*/ Neue Plattform future4europe – Strategische Foresight Aktivitäten

DFG Joint Korean-German Research Projects 2024 in the Natural, Life and Engineering Sciences (NRF-DFG 2024); 26 April 2024, 5 pm Korean time, and to the DFG by 26 April 2024, 12 noon CEST.

As an expression of the fruitful scientific collaboration between their two countries, the National Research Foundation of Korea (NRF) and the Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) are pleased to announce a new funding opportunity for joint Korean-German research proposals in the natural, life and engineering sciences.

Under this call, funding is provided for joint research projects carried out between highly qualified researchers in the Republic of Korea and their German counterparts. The joint proposals have to be based on a close interaction and exchange between the Korean and German research teams and should present joint project goals and a joint work plan with balanced contributions from all project partners.

The collaborative projects selected to take part in this joint initiative will receive research funding for a period of three years. The NRF will fund the Korean project components, while the DFG will fund the components to be carried out in Germany. Based on written reviews, a joint Korean-German panel will select approximately 20 projects for funding.

Proposals submitted to only one organisation (NRF or DFG) will not be considered.

DFG Korean-German Funding Programme for Joint Workshops and Research Visits; Deadline: 17 April 2024

The Deutsche Forschungsgemeinschaft (DFG, German Research Foundation) and the National Research Foundation of Korea (NRF) are pleased to announce a call for proposals for Korean-German joint workshops and research visits.

This initiative aims to bring together relevant and competitive researchers from Germany and South Korea to establish collaborative scientific relationships and prepare joint projects. Funding is available for the following collaborative measures:

- exploratory workshops;
- research visits (max. three months).

Both components can be combined if they are in close temporal relation and if this promotes the particularly effective preparation of a joint project. All individual collaborative measures must be carried out within a maximum period of 12 months.

Researchers in early career phases holding a doctoral degree are strongly encouraged to participate in the above-mentioned activities.

Each national funding organisation will cover the costs for travel and accommodation of the researchers based in the respective country. Organisational costs for workshops and for workshop participants from third countries are covered by the funding organisation of the host country. Funding is only available for projects that involve a convincing collaboration between German and Korean partners and for which the anticipated research benefit is clearly outlined.

EU HORIZON Europe Forthcoming call: HORIZON-CL3-2024-FCT-01: Fighting Crime and Terrorism 2024, Deadline: 20.11.2024

Destination - Better protect the EU and its citizens against Crime and Terrorism

Topics

HORIZON-CL3-2024-FCT-01-01: Mitigating new threats and adapting investigation strategies in the era of Internet of Things

HORIZON-CL3-2024-FCT-01-02: Open topic

HORIZON-CL3-2024-FCT-01-03: Lawful evidence collection in online child sexual abuse investigations, including undercover

HORIZON-CL3-2024-FCT-01-04: Radicalisation and gender

HORIZON-CL3-2024-FCT-01-05: CBRN-E detection capacities in small architecture HORIZON-CL3-2024-FCT-01-06: Tracing of cryptocurrencies transactions related to criminal purposes

EU HORIZON Europe Forthcoming CALL - HORIZON-CL3-2024-INFRA-01: Resilient Infrastructure 2024, Deadline: 20.11.2024

Destination: Resilient Infrastructure

Topics:

HORIZON-CL3-2024-INFRA-01-01: Resilient and secure urban planning and new tools for EU territorial entities IA

HORIZON-CL3-2024-INFRA-01-02: Advanced real-time data analysis used for infrastructure resilience RIA Destination - Increased Cybersecurity

Further information

EU HORIZON Europe Forthcoming CALL - HORIZON-CL5-2024-D3-02: Sustainable, secure and competitive energy supply, Deadline: 21.01.2025

Destination: Sustainable, secure and competitive energy supply

HORIZON-CL5-2024-D3-02-01: Digital tools for CSP and solar thermal plants

HORIZON-CL5-2024-D3-02-02: Development of next generation synthetic renewable fuel technologies

HORIZON-CL5-2024-D3-02-03: Development of smart concepts of integrated energy driven bio-refineries for co-production of advanced biofuels, bio-chemicals and biomaterials

HORIZON-CL5-2024-D3-02-04: Critical technologies for the future ocean energy farms

HORIZON-CL5-2024-D3-02-05: PV-integrated electric mobility applications

HORIZON-CL5-2024-D3-02-06: Innovative, Community-Integrated PV systems

HORIZON-CL5-2024-D3-02-07: Resource Efficiency of PV in Production, Use and Disposal

HORIZON-CL5-2024-D3-02-08: Minimisation of environmental, and optimisation of socio-economic impacts in the deployment, operation and decommissioning of offshore wind farms

HORIZON-CL5-2024-D3-02-09: Demonstrations of innovative floating wind concepts

HORIZON-CL5-2024-D3-02-10: Market Uptake Measures of renewable energy systems

HORIZON-CL5-2024-D3-02-11: CCU for the production of fuels

HORIZON-CL5-2024-D3-02-12: DACCS and BECCS for CO2 removal/negative emissions
